If you are an RICS registered Domestic Energy Assessor then Lifespan SAP is the answer

Developed by Chartered Building Surveyors, Lifespan SAP software has been designed for the professional independent surveyor.

There are no middle men, data handlers or people taking their cut. You do the survey either paper based or electronically, upload the data and the EPC is then lodged directly with the Government database (Landmark). It couldn't be simpler.

Lifespan SAP is a pay-as-you-go system so there are no tie ups and you are in total control of payment – monies are collected each time you lodge an EPC and you simply top up your account as you go.

There are no set up costs and no annual licence fee and because the software is web based all upgrades are automatic ensuring that you will always be using the latest version.

Payment Schedule

So if you want to be truly independent then Lifespan SAP is the answer; you do the work and we supply the tools and the connectivity. All you need is a little software training if you need it, a computer and an internet connection.

No of Surveys (Includes Quality Assurance & Landmark)	Paper Surveys Total (excl VAT)	Electronic Surveys (PDAs) Total (excl VAT)
0 - 200	£5.25/EPC	£5.60/EPC
201 - 500	£5.00/EPC	£5.35/EPC
501 - 1000	£4.75/EPC	£5.10/EPC
1001 or more	£4.50/EPC	£4.85/EPC
